# Video Appliance

The new generation of Avigilon Video Appliances provide an all-in-one security solution with improved performance and higher capacity that help reduce installation time and overall complexity of the surveillance system. The Video Appliance line integrates our ACC™ video management software with a high-powered PoE switch and a client workstation to provide a cost effective recording and video management solution that is capable of supporting multi-megapixel IP cameras, up to our industry-leading 7K (30 megapixel) HD Pro camera line.

Avigilon Video Appliances can be easily added to an existing Avigilon video surveillance system, or as a standalone system for small to medium-scale surveillance deployments.

The compact and powerful 8-port model is an ideal turnkey solution for small video surveillance deployments.

The 16 and 24 port Pro models are suitable for larger installations requiring advanced functionality such as RAID protection, larger storage, increased camera support, and superior overall performance.

KEY FEATURES

Preloaded and configured with ACC Video Management Software

High performance of up to 400 Mbps (16 and 24 port) and 200 Mbps (8 port) of total throughput – simultaneous recording, playback, and live streaming

Up to 24TB of recording capacity with the 1U rack mount appliances and 8TB of recording capacity with the 8-port model

Front-accessible video storage hard drive streamlines maintenance

Includes digital alarm inputs and outputs for integration with external systems

Solid State Drive OS volume ensures high speed operation

Embedded managed switch with powered PoE outputs provide up to 30 Watts of power per port on all ports

Includes high-performance RAID 5 technology that protects and enables access to a drive's data in the event of failure, even while the drive is being replaced and rebuilt*
Protected by a three-year warranty from Avigilon

*On Pro models only
