

Universal 4G speech dialler

The SD-LTE is a universal speech dialler that compliments any system from Fire, Intrusion or Panic alarm systems. All speech and text messaging communications are made fast and secure with next generation 4G (VoLTE) technology, ensuring all activated systems are responded to with no difficulties.

A complete unit, with keypad and display for programming and set up. Personalised voice messages can be transmitted to up to eight recipients. With built-in programmable outputs which can be operated remotely over 4G (VoLTE), 3G or 2G.

The integrated microphone and speaker add to the ability to listen in and speak to the site remotely.

At a glance...

- Allows you to store up to 10 contacts
- Eight trigger inputs which you can assign voice and/or text message to each input
- Built-in microphone and speaker to record and replay audio messages directly from the unit
- Send text messages to mobile telephones via SMS
- Repeats voice messages until acknowledged by a contact

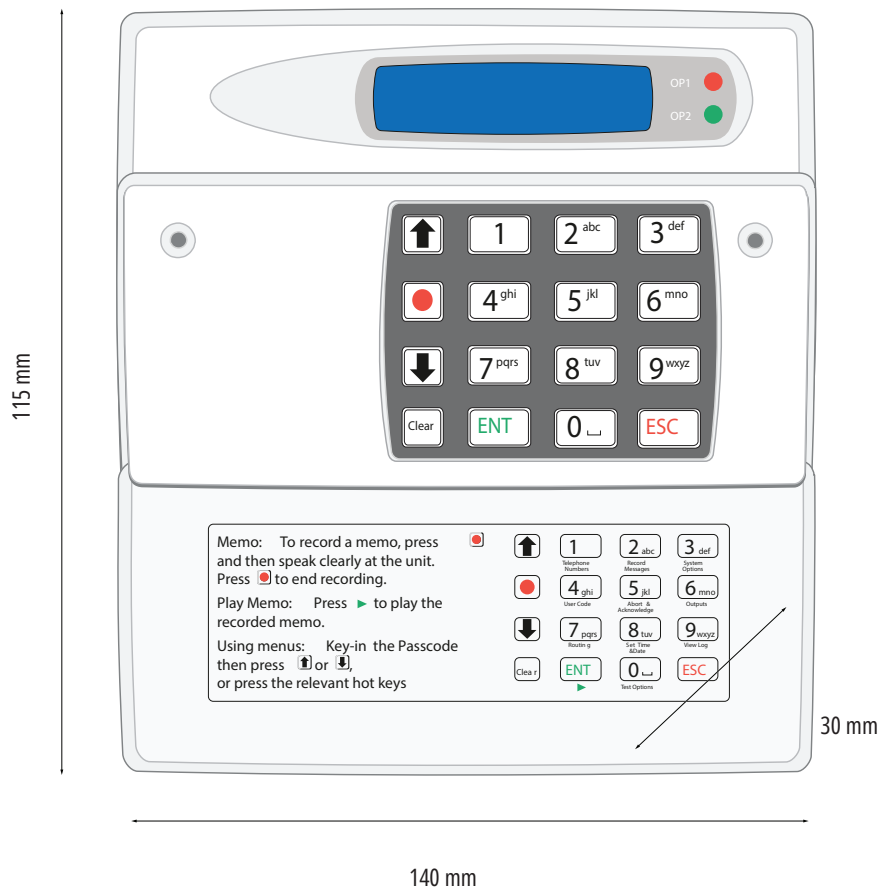

Powering Business Worldwide

Scantronic product data sheet

Product specification

Product Code	SD-LTE
Contacts	10
Messages	Speech: 8 SMS: 8
Power supply (V)	10.5-28Vdc
Operating temperature	-10 to +55
Environmental	Class II
Antenna	External
Max. number of inputs	8
Max. number of transistor outputs	4
Dimensions	115x140x30mm (hxwx d)
